Profile Summary

Results-oriented Software Engineer with specialized training in automation testing, combining theoretical knowledge with hands-on experience. Proven ability to design and implement automated testing processes, enhancing overall software quality. Eager to apply my diverse skill set in software testing and automation to contribute effectively to IT projects, ensuring the delivery of high-quality software solutions and driving innovation.

Experience

Software Engineer Trainee at NeST DIGITAL

August 2022 - May 2023

- Created and maintained automated test cases to ensure comprehensive testing according to system specifications and user stories.
- Executed manual and automated tests during development to identify defects at an early stage.
- Implemented Test Automation Framework using Selenium WebDriver, TestNG, and Maven technologies under the Java platform.
- Generated and designed various test reports, leveraging knowledge of both Behaviour Driven Development (BDD) and Test Driven Development (TDD).

Education

Master of Computer Applications

2020-2022

St. Joseph's College of Engineering and Technology, Palai

85.2%

Bachelor of Computer Applications

2017-2020

Mar Augusthinose College, Ramapuram

74.56%

Technical Skills

- Programming Languages : C, Java
- Test Automation Tools : Selenium WebDriver, JMeter
- Database : MySQL, SQL
